BUILD TIME

2-3 weeks

PROJECT

Hellcat Powertrain & Systems Conversion

INCLUDED SCOPE OF WORK

01	Hellcat engine and transmission	Powertrain package and installation included in the approved project scope.
02	Wiring harness and computer integration	Complete harness, control modules, computer integration, and required electrical connections.
03	Radiator and cooling system	Cooling system installation configured for the Hellcat powertrain.
04	Air intake system	Air intake installation and routing for proper fit and operation.
05	Gauge integration	Modify or replace the truck gauges as required to operate with the Hellcat system.
06	Exhaust to existing stacks	Fabricate and route exhaust to the customer-provided stacks.
07	Engine bay clear-coat finish	Prepare and clear coat the engine bay for a clean, finished presentation.
08	High-flow fuel system	Install fuel line and a high-capacity fuel pump suitable for the conversion.
09	Fabrication, startup and testing	Required fabrication, initial startup, operational testing, and final quality inspection.

PROJECT NOTES & TIMING

Estimated production time is 2-3 weeks after the vehicle is accepted, the \$12,000 deposit is received, and required components are available. Custom work may reveal unforeseen conditions. Any work outside this approved scope will be presented for customer approval before additional charges are incurred.

PROJECT INVESTMENT

COMPLETE CONVERSION PACKAGE	\$19,300.00
TAX	INCLUDED
DEPOSIT DUE AT DROP-OFF	\$12,000.00
BALANCE DUE AT COMPLETION	\$7,300.00

PROJECT TOTAL

\$19,300.00

CUSTOMER APPROVAL

By signing, I authorize Project Perfect Automotive Studios to perform the scope listed in this estimate. I acknowledge the project total, payment terms, estimated timeline, and the requirement that additional work be approved before it is performed.

☐ I approve this project and authorize the work described.
