PROJECT ESTIMATE

& BUILD AUTHORIZATION

PAS-2026-0004 | AWAITING APPROVAL

CUSTOMER	VEHICLE	VEHICLE LOCATION	BUILD TIME
Duane Tomlin	1979 Dodge Pickup	Missouri	2-3 weeks
PROJECT	Hellcat Powertrain & Systems Conversion		

INCLUDED SCOPE OF WORK

01	Hellcat engine and transmission	Powertrain package and installation included in the approved project scope.
02	Wiring harness and computer integration	Complete harness, control modules, computer integration, and required electrical connections.
03	Radiator and cooling system	Cooling system installation configured for the Hellcat powertrain.
04	Air intake system	Air intake installation and routing for proper fit and operation.
05	Gauge integration	Modify or replace truck gauges as required to operate with the Hellcat system.
06	Exhaust to existing stacks	Fabricate and route exhaust to the customer-provided stacks.
07	Engine bay clear-coat finish	Prepare and clear coat the engine bay for a clean, finished presentation.
08	High-flow fuel system	Install fuel line and a high-capacity fuel pump suitable for the conversion.
09	Fabrication, startup and testing	Required fabrication, initial startup, operational testing, and final quality inspection.

Estimated production time is 2-3 weeks after the vehicle is accepted, the \$12,000 deposit is received, and required components are available. Work outside this approved scope requires customer approval.

COMPLETE CONVERSION PACKAGE	\$19,300.00
